

## Child Fatality Review

# Acronym Guide

### **Child Fatality Review (CFR)**

The Child Fatality Review (CFR) is an established public health process with the purpose of enhancing effective prevention of child injury and mortality through an understanding of the circumstances surrounding and contributing to the unexpected deaths of Spokane County children under the age of 18. The review process includes three steps: identification, review and prevention.

Child Fatality Review is considered a formal name, and the first letter of each word should always be capitalized.

### **Child Fatality Case Review Panel (CFCRP)**

The Child Fatality Case Review Panel (CFCRP) is a multidisciplinary group of professionals who review cases through confidential discussions resulting in identification of case findings related to risk factors, protective factors, and preventability of death.

Individuals participating in the CFCRP are referred to as CFCRP members.

Child Fatality Review Case Review Panel is considered a formal name, and the first letter of each word should always be capitalized.

### **Recommendations Committee (RC)**

The Recommendations Committee (RC) is a multidisciplinary group of professionals who review annual aggregate case findings, population level data, and information about evidence-based prevention practices through confidential discussions which result in the identification of three priority prevention recommendations annually. The RC is a subset of the CFCRP, comprised of CFCRP members who self-select to participate.

Individuals participating in the RC are referred to as RC members.

Recommendations Committee is considered a formal name, and the first letter of each word should always be capitalized.

### **Prevention Action Team (PAT)**

The Prevention Action Team (PAT) is a multidisciplinary group of professionals who formulate and carry out an action plan aimed at implementing a priority prevention recommendation identified by the RC without reviewing confidential or case-specific information.

A singular Prevention Action Team is referred to as a PAT. A lowercase s should be added to the end of the acronym when referring to multiple Prevention Action Teams (PATs).

Individuals participating in a PAT are referred to as PAT members.

Prevention Action Team is considered a formal name, and the first letter of each word should always be capitalized.

Spokane Regional Health District assures nondiscrimination in accordance with Title VI of the Civil Rights Act of 1964 and the Americans with Disabilities Act.
