

N95 RESPIRATOR

THE BEST MASK FOR WILDFIRE SMOKE PROTECTION

and excellent at protecting against COVID-19

3 KEY FACTORS FOR AN N95 RESPIRATOR TO BE EFFECTIVE

- 1 The respirator must be put on correctly and worn during the exposure.
- 2 The respirator must fit snugly against the user's face to ensure that there are no gaps between the user's skin and respirator seal.
- 3 The respirator filter must capture more than 95% of the particles from the air that passes through it.

*If your respirator has a metal bar or a molded nose cushion, it should rest over the nose and not the chin area.
