If any additional public food service will be offered at this facility (e.g., school lunches, fundraisers like spaghetti feeds, concession stands, DECA) please be sure to contact Spokane Regional Health District’s Food Safety Program at (509) 324-1560 ext. 2 for more information.

Milk cooler inspection is checked N/A above because:

- Have school lunch program inspected by SRHD Food Safety Program
- Do not serve milk
- Other:

*The intent of this requirement is to ensure the milk is held at proper temperature, rather than just recording the air temperature in the refrigerator. To correctly monitor, you may either use a metal stem thermometer to check the temperature of the milk itself or of a container of water that has been held in the refrigerator. Best practice is to take the temperature of the product in the warmest part of the cooler (i.e., the top shelf or door).
